

Overview

I am a front end developer with strong UX skills. I'm passionate about the web and open source.

Work experience

State.com — Front End Developer

May 2014 - current

- Increasing reach by making State.com responsive and mobile-first
- Saving money through switching to universally rendered ReactJS with Flux - removing cost of maintaining in house framework; increasing developer efficiency
- Improving CSS quality; introducing BEM, Autoprefixer and similar CSS best practices
- Future proofing JS code base by adding babel and ES6 compilation
- Lowering Time to First render by several seconds through improving critical path to rendering and other Web performance techniques
- Collaborating closely with design to quickly iterate on new features

Front end developer

Aug 2011 - May 2014

Using progressive enhancement to ensure accessibility for diverse global audience, while using latest web tech. Prototyping and user testing new features.

Freelance Web designer

June 2011 - August 2011

Designing, testing, and building a few small websites for people around me, as favours and as training for myself.

MealPlanner — Interaction Designer

February 2010 - May 2010

Prototyping and usability testing, for a university funded project for which I did my Bachelor Thesis.

Education

Master of Interaction Design How to design, prototype, test and build functional, engaging and pleasurable user experiences.
University of Queensland, Australia - July 2012

Bachelor of Cognitive Science Knowledge of how people think, and why. Programming, Interaction design and general research skills.
University of Linköping, Sweden
- June 2010
